From the 41st floor, the Tama River and central Tokyo

Beyond the living-room windows lie the Tama River and, in the distance, central Tokyo. A life close to the sky begins here.

Living & dining, approx. 11.2 jo
Rendering (AI-generated)

View from the 41st floor
Toward the Tama River and central Tokyo

* The living-room rendering is an AI-generated image based on the floor plan; actual finishes, furniture and views will differ. The view photo was taken from a height equivalent to the 41st floor and may differ from the actual view from the unit.

Design supervised by Kengo Kuma: "two great trees rising from the earth"

Bark louvres give the towers the look of wood, and the crown dissolves into the sky. Lighting by Satoshi Uchihara draws the trees in three layers of light.

The twin towers at night
Three-layer lighting

Crown design
A top that melts into the sky

The twin towers at dusk

Bark canopy
Like the roots of a great tree

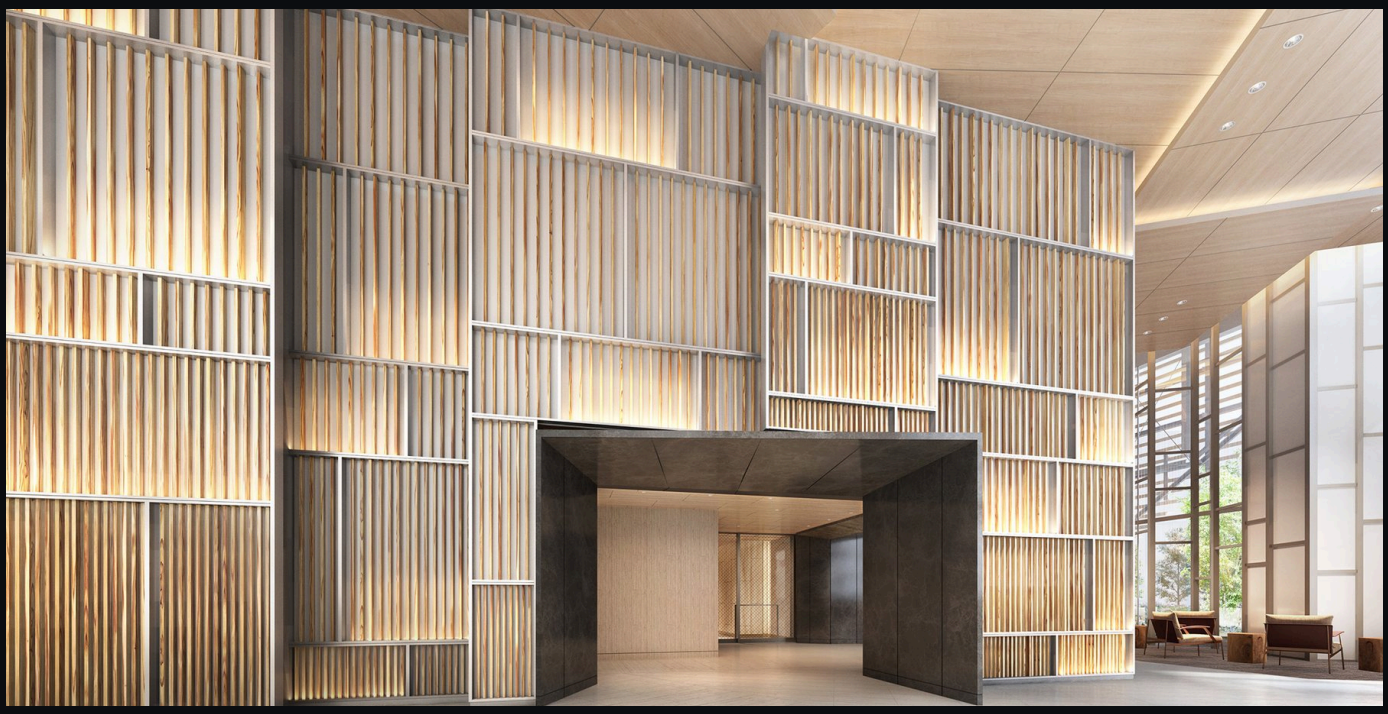

The podium at night
Light like dappled shade

Ecological garden
A living room for the town

A grand entrance wrapped in warm wood

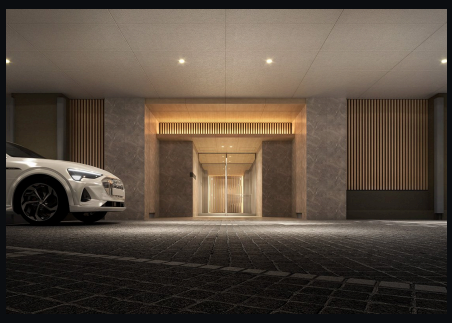

Common spaces expressing the grain of a great tree, under the concept "Grand TREERING". On the upper floors, lounges bring the view inside.

Grand entrance (North)
Theme: "Rhythm"

Entrance water feature (North)
Beyond the Komorebi Garden

Porte-cochère (North)

Grand entrance (South)
Theme: "Dynamic"

Sky View Lounge (North)
Sofa seating with night views

The quiet streets north of the station

The convenience of the station-front shops, with the calm of the residential streets to the north. The Nikaryo canal, lined with cherry blossoms in spring, and green walkways are within walking distance.

Nikaryo canal
approx. 770 m, 10 min walk

Musashi-Kosugi Sta. north exit
3 min walk (South)

Around the north exit
Wide, well-kept pavements

Imai-Kamicho green walkway
approx. 630 m, 8 min walk

Todoroki Ryokuchi park

Nippon Medical School Musashi Kosugi Hospital
Opened 2021

Musashi-Kosugi's towers

* Distances and walking times are the official figures from the South tower. Some photos are for illustration.

A large mixed-use town development

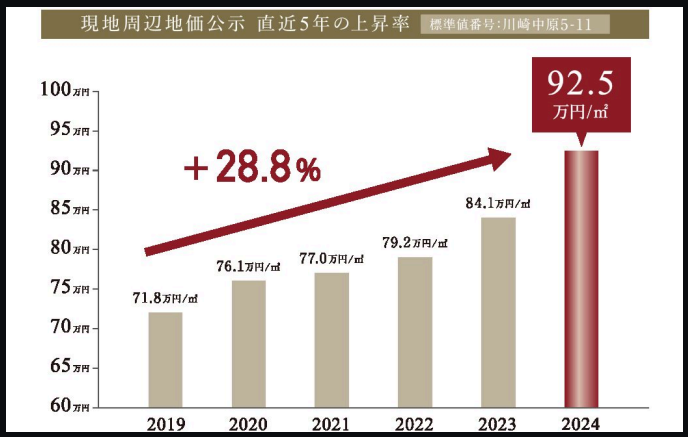

A town-building project developed over 15 years across more than 20,000㎡, combining medical, educational, residential and commercial uses: a new landmark north of the station.
